DETAILED ACTION

Allowable Subject Matter

1. Claims 29-33 are allowed for the reasons stated in the Office Action of March 3, 2004.
2. Claims 1-12, 14-28 and 34 are allowed.

The references fail to teach, disclose, or suggest, either alone or in combination, each receiving area having the signal contacts located along only a first one of the sides and the power contacts located along only a second one of the sides opposite the first side, the power contacts extend into the two receiving areas only from the housing section and the signal contacts extend into the receiving areas only along sides of the receiving areas opposite the housing section, the plurality of USB plugs with signal contact supporting decks of two of the plugs being located vertically offset relative to each other and power contact supporting sections of the two plugs being at least partially laterally adjacent each other and the conductors on the supporting deck comprising the first side having only signal conductors and the second side power conductors and in combination with the rest of the limitations of the base claims.

Applicant's arguments presented in the Appeal Brief filed on March 22, 2004, regarding the Wu reference are deemed persuasive.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2833

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
